

Yes I Feel This Way

Hey mister will you listen
To somethings this man has to say
About the plans I have for tomorrow
And the way that life plays out today

So when the sun shines in your morning
And there's light to show the way
Please remember that we'll make it
And yes I feel this way

It's for you and not your brother
To decide which is your way
Don't sit down and try to harbor
All your trials inside of one day

So when the sun comes shinin' in the morning
And there's light to show the way
Please remember for me will ya
That you'll do it til your dying day
Yes, remember for me will ya
That you'll do it til your dying day

So when the sun shines in your morning
And there's light to show the way
Please remember that we'll make it
And yes I feel this way

So when the sun shines in your morning
And there's light to show the way
Please remember that we'll make it
And yes I feel this way
